SUMMARY

Hardworking, consistent, and disciplined developer with hands-on experience in full-stack web and mobile app development. Focused on building scalable, high-quality products while continuously learning advanced concepts like microservices, system architecture, and performance optimization. Passionate about using AI tools to code faster and smarter, and approaching every project from a strong business and user-centric perspective to deliver impactful, practical solutions.

WORK EXPERIENCE

SDE, Transmatrix Global Private Limited **Aug 2025 - Present**

- Develop Websites and Apps for internal use and for Clients
- Develop tools to make the internal processes easier
- Having meetings with clients to understand their needs and to deliver them with the results

Web Expert, Google Developers Students Club DBIT **Jun 2023 - Aug 2024**

- Conducted workshop of Javascript
- Conducted workshop on 3JS, 3D web development
- Management

Website Maintenance, DBIT Kurla **Jun 2023 - Jun 2024**

- Managed College Websites
- Added some improvements in College Websites

EDUCATION

- **Bachelor of Computer Engineering with Honours in Data Science (9.22 CGPA)** Dec 2021 - May 2025
Don Bosco Institute of Technology, Mumbai
- **HSC Science (92%)** **Jun 2019 - Jun 2021**
St. Andrew's College of Arts, Science and Commerce, Bandra
- **SSC (85.02%)**
St. Anthony's High School, Vakola

ADDITIONAL INFORMATION

• **Technical Skills:**

Full Stack Website Development:

NextJS, ReactJS, NodeJS, ExpressJS, MERN Stack, TailwindCSS, Hosting, Python,

Full Stack App Development:

React Native, Expo, MERN Stack

Databases:

MongoDB, Firebase, SQL

Platforms, Tools and Others:

Vercel, GoDaddy, Cloudinary, Postman, Git, Github, Canva, Vibe Coding, VScode, AntiGravity, Rapid API, PowerBI, Figma, SEO

- **Projects**

- **Client Connect App:**

- Developed an app using React Native, Expo and Firebase for DB
 - Can store client meeting data and picture of client and Visiting cards in the App
 - Schedule future meetings in device calendar and get reminder notification 1 hr before the meeting
 - Built role-based access inside the app: Super Admin → Team Leaders → Team Members.
 - Enabled team creation, assigning leaders, adding members to teams, and restricting meeting visibility based on team structure.
 - Integrated email sending from the app and provided super admin with global visibility.
 - Download and Share meeting data in Excel file
 - Made APK using Expo

- **Events Management Website:**

- Developed a Website using NextJS, Firebase for DB, Cloudinary for storing images and hosted on Vercel
 - Admin Dashboard with CRUD operations for the Events
 - Event registration system sends attendees a unique QR code, generated within the Website and emailed automatically from the Website itself.
 - Built a separate attendance scanner app in React Native to scan QR codes and store attendance + check-in time in Firestore.
 - Added a custom feedback form builder within the Website allowing the admin to generate event-specific feedback forms.
 - Displayed a feedback form QR code to attendees; responses stored in Firestore.
 - Built an admin panel to:
View attendees, Track feedback, Send bulk emails from platform to the Attendees with the feedback form link for reminders, Export data and feedback to Excel, Share Event Links

- **Transformatrix Global Pvt Ltd Company Website (<https://www.transformatrix.in/>)**

- Built Official website for the company using NextJS, Nodemailer

- **Insleek App:**

- Swipe Based fashion social media platform for fashion enthusiasts built along with my cofounder for our final year engineering Project

- **Bible Website (<https://gaven-bible.vercel.app/>)**

- Built a bible website using a Bible API from Rapid API platform. Made the website using React JS and 3JS for 3D components. Added sharing of verses, and Audio book features too.

- **Languages:** English, Hindi, Konkani

- **Accomplishments:**

- Got incubation for Insleek App in Bharat Valley Incubator and Accelerator
 - Won Gold Medal in Tug of War in Euphoria DBIT Sports Event
 - Conducted 2 Workshops During college, one for Javascript and another for 3JS

- **Certifications:**

- Front End Web Development Ultimate Guide
 - [ReactJS-Complete Guide For Frontend Web Development](#)
 - Backend Development with NodeJS, ExpressJS and MongoDB
